ACTIVITIES & INTERESTS

MUSIC

Member of the sound and light association of Mines Nancy :

Performed as a DJ many times for parties of up to 600 people in addition to the installation of the sound system and the light system.

Strong interest in music creation as a hobby :

I love creating music and exploring different ways to make sounds such as modular synthesis or other type of synthesis

CINEMA

Short film in partnership with the Nancy art school (ENSAD):

Realization of a short film in partnership with the art school ENSAD as sound engineer in a group of seven students and with professional equipment.

Creation of an animation short film as a personal project for my sabbatical year :

Currently working on an animation short film in order to submit it to several movie festivals.

Member of the news broadcast association of Mines Nancy :

Realization of several animation shorts for the news broadcast of the school which is screened in front of all the students of the school before each vacation.
